

Anastasia Rzhavskaia

Front end Developer Junior

Hello, dear Hiring Manager,

I am writing to apply for React Front end Junior Developer position.

My name is Anastasia, I'm new in Front end, but I really like coding.

Last six years I was on maternity leave, and about year ago I felt that I'm ready for something new, for realized myself, so I took courses of HTML5/CSS3, then JavaScript, and now I'm taking courses of React.js/Node.js/Redux/Hooks.

You can find a link for my project in my CV.

I need a start in company, that can help me to realize myself.

I'm a fast learner person and willing to learn, responsible. If I don't know something, it's a chance for me to find it out. The new doesn't scare me, I'm ready to changes.

Thank you for your time and consideration.

Anastasia Rzhavskaia.
